

HOW TO USE DEEJAY OPTIONS

On the whole the site is pretty simple to use, below are some basic guidelines to assist you with using the more unique features deejays have available to them. If you experience any issues or have suggestions please email us feedback@grundoonmusic.com

- Once logged in Deejay option will appear in the top right panel of the site window
As seen below:

- Inside the 'Administer mixes' section:

• **Uploading a mix:**

UPLOAD YOUR MIXES

MIX NAME:

MIX LOCATION: *This will default to your DJ Profile location. Best to leave this as the country name for searching purposes*

DEEJAY NAME:

GENRE:

IMAGE UNAVAILABLE

BROWSE & UPLOAD PICTURE: *Make sure Mix covers meet the criteria listed below or the mix will not be approved. Large image files cause errors on the site and delay the pages loading when members are searching for your mix*

Image Criteria : 160pix x 100pix no more than 20kb
Note : mixes with out covers will not be actively promoted by the grundoon team

BROWSE & UPLOAD MIX:

Mix Criteria :
* Not less than 45min or more than 90min in length
* Mixes must be less than 80MB
* Mixes must be in mp3s format encoded at not less than 16kps

COMMENTS: *Make sure Mixes meet the criteria listed below or the mix will not be approved. Only mp3 files are accepted.*

100 characters left

After clicking submit you will be taken to the track listing page where you can fill in your track listing for the mix

Type any additional comments you would like members to read about your mix.

• **Inserting your track listing:**
